For teams of up to 6 "family members", contestants will be asked a variety of "a survey was carried out on 100 people" questions. For every answer that matches our survey they will receive points, dependent upon how popular the answer is. If the answer does not appear on our survey you will see a large 'X' on the screen accompanied by its sound effect.

The team who has the most points at the end of the game then go on to select one of their family members to play the final round. The number of rounds can be dependent on the time you have available...great entertainment!
