GPS Treasure Hunts

Our GPS Treasure Hunt brings the treasure hunt into the new Millennium!

GPS will pinpoint your current position with great accuracy and then guide you on a route to a series of landmarks programmed into the GPS unit.

Following a GPS route is straightforward in open areas, such as parkland where you can walk on a straight-line bearing. In the urban jungle (or perhaps a scenic town/village) it's not quite so easy! For example the GPS may be guiding you straight ahead but the junction you have reached only offers a left or right choice of routes. Decision time! Wherever you move, your current position is updated every few seconds with information about where you are in relation to your destination point.

The great thing about the GPS Treasure hunt is the flexibility. We arrange treasure hunts all over the UK. You choose where! A city centre, a country park, an attractive village, anywhere really, though a location with plenty of interesting features surrounding works best. We can make the trail wide ranging or stay within the grounds of a selected venue (given the odd acre to play with!). The trail can be highly cryptic and cerebral or a straightforward race to claim the treasure. We can get teams working together to reach a combined goal. Or we can stick to the tried and trusted competitive event.

Finally, this is the perfect opportunity to take in the sights around your selected location, including local landmarks, viewpoints and other features of interest. The event concludes with a treasure chest being opened or a combination of a safe to be cracked, often just seconds before the final deadline is reached!

Key Information:

Price Bracket:

£30 - £70pp

Cost dependent on group size and duration.

Location: UK wide

What is included:

GPS Systems
Treasure Hunt Packs
Maps & Clues etc.
Digital cameras
Bottle of Champagne
CD of photos

Duration:

Half Day (2½ hrs)

Full Day (5 hrs)

What is not included:

Event Management Fee
