

# MISSION: IMPOSSIBLE

***High Tech - Fast Action***

Mission Impossible is a fun and exciting Team game. The mission, "should you choose to accept", starts with a briefing from Mr Phelps and includes a DVD played by actors. At the briefing each team will receive a dossier which contains top secret documents and equipment needed to complete the mission.

Intelligence reports and information will be received during the day, often in the form of coded messages or through meetings with undercover agents. Teams will have to decipher messages and navigate their way to various locations. The game will test all teams on their intelligence, nerve and resourcefulness.

Mission Impossible can run as a competitive game or a collaborative team effort where everyone works together to achieve the overall Mission objectives. There's no limit to the number of teams who can play and a game can last from 2 - 5hrs!

As usual, once you accept the Mission, should any member of your team be captured or killed, the secretary will disavow any knowledge of your existence...Good luck!

*\* Please let us know if teams will have Internet access as this can be used to enhance the game.*
